

19th INTERNATIONAL CONFERENCE ON EXPERIMENTAL MECHANICS

Kraków, Poland, July 5-9, 2020

Warsaw, June 15th, 2019

Dear Colleague,

ICEM19, the nineteenth International Conference on Experimental Mechanics will take place from **July 5th to July 9th, 2020 in Kraków**, for the first time in Poland.

International Conferences on Experimental Mechanics, organized under the auspices of the European Society for Experimental Mechanics (EuraSEM), have a long tradition (1959 Delft, 1962 Paris, 1966 Berlin, 1970 Cambridge, 1974 Udine, 1978 Munich, 1982 Haifa, 1986 Amsterdam, 1990 Copenhagen, 1994 Lisbon, 1998 Oxford, 2004 Bari, 2007 Aleksandroupolis, 2010 Poitiers, 2012 Porto, 2014 Cambridge, 2016 Rhodes, 2018 Brussels). ICEM brings together internationally recognized experts and young researchers in an effort to exchange ideas in different topics having the common link „Experimental Mechanics“. ICEM acts also as a platform for establishing connections between different research teams that are trying to build and develop future scientific collaboration.

ICEM19 will be focused on experimental and measuring techniques for thorough study of the mechanical properties of different materials, engineering structures and systems which are necessary to create the physical bases and provide verification of analytical or numerical methods in engineering design.

The main topics are presented on our website: <http://www.icem19.org>

On behalf of the Local Organizing Committee and the Scientific Advisory Board it is my great pleasure to cordially invite you to participate in the ICEM19, and present a paper showing your current achievements in experimental mechanics and related topics.

Interested authors are invited to submit a two-page abstract through the ICEM19 website by **October 31, 2019**.

I would be very grateful if you could forward this message to those of your colleagues who you believe could make a fine contribution to ICEM19.

I am looking forward to your positive response and welcome you in Kraków in July 2020.

Yours sincerely,

Zbigniew L. Kowalewski

Chairman of the 19th ICEM 2020
